

Making a Brighter Future for Babies

How your support helps

Our new campaign aims to raise money to help premature babies and those battling illness being cared for in the Trevor Mann Baby Unit in Brighton and the Special Care Baby Unit in Haywards Heath.

Every year 60,000 babies are born prematurely in the UK, often needing specialist equipment to help keep their bodies working and 24-hour care from expertly trained staff.

But with your help, we can provide this extra support to help these babies.

How a donation of £500 could help

A £500 donation could help us buy things like neonatal ventilators to help tiny lungs breathe, incubators to keep them safe and insulated or cooling mats to reduce the brain swelling and reducing the chance of brain damage.

And as a thank you, we can offer you:

- A 'Thank You' certificate signed by our CEO
- A special supporter icon to use on your emails
- A follow up email including exactly how your support has made a difference
- Inclusion on a thank you page on our website

To donate, simply scan this QR code or visit our website:
