

# Coronavirus SOS Marketing Support

It's difficult enough to focus on running a business and that's without the added stress and hassle of having to communicate with your customers, whilst we are going through the COVID-19 crisis.

With this in mind we have developed a short term communications package for companies, which includes the following:

-  Rapid on-boarding
-  Planning & Strategy
-  Management and content of up to three social media platforms
-  Regular email communication to existing clients
-  Email communication to prospects and leads
-  Sales ideas and opportunities
-  Content & alerts for the website
-  Boosted social media content
-  Weekly 1 hour phone call with our CEO, Matt Turner, to focus on strategy, implementation and the commercials behind the business. This includes advice and general support, as well as general business therapy with a creative twist and a positive outlook

Prices start at £749 +VAT per month for 3 months starting 1<sup>st</sup> April 2020
