

THE BUSINESS **HOTHOUSE**
GRANTS | GUIDANCE | GROWTH

**FREE**

DREAMING OF STARTING YOUR OWN BUSINESS?

Through our **free** How to Start a Business boot camp, we provide all the expert advice and guidance that you need to turn your business idea into a trading business. Our boot camp is delivered both online and in-person by business experts who also provide free, on-going support throughout your business start-up journey.

Our in-person boot camps are delivered as two, six-hour sessions in easy-to-access venues in towns and cities across the coast-to-capital area. Our online boot camps are delivered via Microsoft Teams as six, daily, two-hour live and interactive sessions.

We welcome anyone who wants to start, or who has recently started a business to join our boot camps. No prior business experience is needed and as well as filling your business knowledge gaps, through attending the boot camp you'll meet other entrepreneurs and start to build your business network. You'll also find out how to access business grant funding and other sources of business finance to help get you started.
