The Gatwick Diamond Business community

“We have supported the Gatwick Diamond Business community for over 60 years. Proud of our independence, we are owned and run by our members, for our members.

Our mission is to help you achieve your ambitions by being part of our business community - connecting, supporting, promoting, informing and boosting you and your business.

Like all businesses, we cannot stand still – we build on our strengths. One of the ways we are doing this is by giving you more choice and flexibility to tailor your membership to meet your particular needs.

So, we have now introduced new options which give you the opportunity to get more from your membership. Our Diamond option, available exclusively to members with no more than 100 employees, includes all the benefits members have come to expect from us.

However, all members, regardless of size, can now opt for one of three further options with inclusive benefits that offer great additional value. These are our Diamond Plus, Diamond Premium and Diamond Business Champion membership options.

Our aim is to ensure that all members get the very best from the opportunities that the Gatwick Diamond Business community offers.

We would be delighted to discuss which option would be the perfect fit for you.”
